

# UPDATE: NEW FEATURES

**Email payment request link with invoices:** Email an invoice with an outstanding payment to a client, the email will include a link for the client to pay the amount owing.

**Service color-coding in scheduler:** For clinics that prefer to designate colours with specific services rather than employees when viewing the appointment scheduler.

**Integrated E-Prescribing for US licensed medical providers:** Our new ScriptSure integration enables providers to securely send E-Prescriptions right within the patient's chart in Wylie without leaving the system.

**External calendar subscription (Google, Outlook, and Apple):** Subscribe to your Wylie calendar in external calendar applications to view your appointments in Google, Outlook, and Apple calendars.

**Sales by campaign report:** See a breakdown of how much revenue was generated by clients from a particular marketing campaign. (Located in the 'LEADS' menu)

**Med Spa software update!** If you are a med spa currently using Wylie and would like the Aesthetic Insight software update, which ensures you always have the latest med spa features, email support at

**Zoom Integration Update:** We recently updated our Zoom integration. If you have not yet reconnected your Zoom account,
